---

**Description:** Join us for an historical overview over the last century of man's more ennobling impulses- courage, empathy, strength of character and generosity- that appeared amid the darkness of repression, injustice and war. Using images and video clips, Bob will examine men and women who risked their lives to save others during the Second World War, and will profile the moral stature of those who challenged demagoguery on one side and Communist repression on the other side of the Iron Curtain during the Cold War. He will examine those who exposed or resisted injustice, soldiers who risked their lives to save others and those who struggled with PTSD.
