

2018 Spring Speaker Series

Date: April 24, 2018

Speaker: **Scott Dobson**

Background: Producer / Director

Title: **"Saving the World; one turtle at a time"**

Description: This lecture will feature a screening of the multi-award winning short film "Fix and Release" which highlights the incredible work of the Ontario Turtle Conservation Centre in Peterborough. The film will be followed by conversation with the director Scott Dobson on the making of the film and a special presentation by scientists from the Centre with the help of the four-legged turtles. The presentation will be a mixture of science, humour, and hope.
