

# Durham Lifelong Learning

## 2016 Fall Lecture Series

---

**Date:** Nov. 1<sup>st</sup>, 2016

**Speaker:** Dr. Becky Cudmore

**Background:** Manager, Asian Carp Program and  
Senior Advisor, Aquatic Invasive  
Species, Fisheries and Oceans  
Canada

**Title:** **“The Threat of Asian Carps to the Great Lakes”**

---

Description: Asian carps, a group of four species not native to North America, are threatening the Great Lakes. This presentation will describe the threat these species pose and what the government and public are doing to address this threat.
